

CESRA 2018 Summer School Announcement

The next CESRA Summer School (http://cesra.net/?page_id=184 <http://cesra.net/?page_id=184>) will be take place at the Royal Observatory of Belgium, in Brussels, from September 10 to September 14 2018. It will provide to students having a Master degree in physics or astrophysics, or students/researchers in technical domains connected to radio astronomy, an introduction and an overview of present-day solar radio physics.

Registration to the school starts now and will close on June 27 2018. As the number of seats is limited to 25 students, registration applications will be reviewed. Applicants will be informed of the result the first week of July by the latest.

More information on the preliminary program can be found on the school website:

<https://events.oma.be/indico/event/53/> <<https://events.oma.be/indico/event/53/>>

where students can also apply for registration.

The school is organised by the Royal Observatory of Belgium and the Solar Terrestrial Centre of Excellence, and has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 730562 [RadioNet]
