

Message transmis par Olga Alexandrova

Dear colleagues,

Following a full and well-attended session last year, we are organising another EGU session this year entitled "Turbulence and Instabilities in Space Plasmas" at the EGU General Assembly, taking place 17-22 April 2016 in Vienna.

We welcome all submissions relating to the session topic. The session description and more information can be found here: <http://meetingorganizer.copernicus.org/EGU2016/session/20709>

The deadline for abstracts is 13 January 2016.

Regards,
Chris, Luca and Olga
