15th European Space Weather Week (ESWW)

November 5-9, 2018

Leuven, Belgium

<http://www.stce.be/esww2018>

1st announcement

**** Call for Topical Discussion Meetings ****

Dear Colleagues

The European Space Weather Week is an excellent place to discuss all sorts of space weather issues and to look for partners and collaborators. The ESWW Programme Committee (PC) wants to stimulate and facilitate this by offering rooms and time slots for what is called 'Topical *Discussion* Meetings' (TDM).

A TDM is a 1h 15min meeting and aims at discussion and interaction between the participants. T*D*Ms are announced through the ESWW-website and the printed program book and are open to all ESWW participants. Technical support will be provided during the meetings. T*D*Ms take place in the afternoon from Monday to Thursday.

More info about T*D*Ms: <http://www.stce.be/esww15/tdm.php>

We would like to invite and encourage you and your colleagues to submit a title and short abstract for a Topical *Discussion* Meeting. The deadline for submission is 18 May, 2018 included.

The PC decides which of the submissions are accepted and arranges the time schedule with the least possible clashes. Conveners will be notified as early as possible and no later than the end of June (after the PC meeting).

With kind regards

Mauro Messerotti and Petra Vanlommel, on behalf of the ESWW PC
