

First announcement of the international conference to honour Jean-Paul Zahn's career
26th to 29th of June 2016 at IAP, Paris, France

Jean-Paul Zahn's great scientific career and contributions to many fields of astrophysics will be remembered during an international conference held at IAP, Paris, France during the last week of June 2016.

Key topics to illustrate his significant scientific contribution will be:

- Tides in planets and stars
- Seismology and Stellar Structure, Evolution and Rotation
- Convection and Magnetism
- Instabilities, turbulence and disks

Keynote lectures by long time collaborators and friends will be given by respectively Prof. André Brahic, Prof. André Maeder, Prof. Juri Toomre and Prof. Ed Spiegel.

Please mark your calendar.
