

Message transmis par Eduard Kontar <[Eduard.Kontar@glasgow.ac.uk](mailto:Eduard.Kontar@glasgow.ac.uk)>

A PhD studentship is available in the area of solar radio physics/radio aspects of space weather at the University of Glasgow:

<http://www.astro.gla.ac.uk/?p=4471>

The successful candidate will be based in Glasgow in the Astronomy & Astrophysics group (<http://www.astro.gla.ac.uk>)

and they will closely collaborate with Paris Observatory, Meudon.

The PhD student will work with imaging and spectroscopic data from the Low Frequency Array (LOFAR),

developing simulations to establish more detailed links between radio transient phenomena

and the fine structures in radio burst spectra.
