

Dear colleagues,

Please find attached the programme of the TREASURE project Autumn school to take place in Bath, UK, 19-22 November 2018. This autumn school provides a mix of lectures and hands on activity delivered by top international experts in the field.

TREASURE - Training REsearch and Applications network to Support the Ultimate Real time high accuracy EGNSS solution, is a Marie Skłodowska-Curie Actions Innovative Training Network, funded through the EU Horizon 2020 research and innovation programme (see [www.treasure-gnss.eu](http://www.treasure-gnss.eu) <<http://www.treasure-gnss.eu/>>).

Apologies for the short notice but the deadline for the school registration is 15 September 2018. We are currently looking into the possibility to extend this deadline, but I thought I should circulate this sooner rather than later.

Please follow this link for the school programme details and registration: <http://www.treasure-gnss.eu/second-treasure-school-bath-uk/> <<http://www.treasure-gnss.eu/second-treasure-school-bath-uk/>>

All the best,  
Marcio.
