

Dear Colleagues,

The second annual meeting of the Heliospheric Cataloguing, Analysis and Techniques Service (**HELCATS**: <http://www.helcats-fp7.eu/>) FP7 project and the first **VarSITI** General Symposium (VarSITI 2016: <http://newserver.stil.bas.bg/VarSITI2016/>) will be held jointly on 6-10 June 2016 in Albena in Bulgaria. **Pre-registration**: 1 March 2016: <http://newserver.stil.bas.bg/VarSITI2016/>, **Abstract submission deadline**: 1 March 2016. The sessions are on 1) extreme solar event and its consequences on Earth, 2) long-term variation of the Sun and climate, 3) space weather prediction and applications, 4) campaign event study of recent CMEs and magnetic storms, 5) modeling connection, and 6) data archives. Additionally, there will be a **dedicated session** on the recent results obtained by the HELCATS FP7 project with presentations describing how the latest catalogues of CMEs and CIRs can be accessed, visualised and exploited.
