

Two Research Associates in Space Plasma Physics at MSSL/UCL
Ref: 1600919
UCL Department of Space & Climate Physics
Salary: £31,076 - £38,183 per annum
Closing Date: 30 Nov 2016

We would like to advertise two (2) PDRA positions at MSSL/UCL in Space Plasma Physics available until April 2019, with a possible extension subject to funding availability through the MSSL Consolidated Grant or additional sources. The scientific focus of these positions are on auroral physics, the magnetospheric substorm and their impacts on the inner magnetosphere. These projects are expected to utilise state-of-the-art data collected from the ESA Cluster auroral acceleration region campaigns as well as data from the NASA THEMIS, Van Allen Probes and MMS missions.

For more details please see:

<http://www.ucl.ac.uk/mssl/jobs/mssl-jobs/2016/post-doc-plasma>

or

<http://tinyurl.com/gtqmt8p>

We would expect to interview shortly after the closing date in early December.

Formal or informal inquiries can be directed to Prof. Andrew Fazakerley (a.fazakerley@ucl.ac.uk), Jonathan Rae (jonathan.rae@ucl.ac.uk), or Libby Daghorn (l.daghorn@ucl.ac.uk)
