

IAU Symposium 365

Dynamics of Solar and Stellar Convection Zones and Atmospheres

25–29 August 2020, Moscow, Russian Federation

Second Announcement

Dear Colleague,

We are happy to inform you that you can now register for participation in the IAU Symposium 365 “Dynamics of Solar and Stellar Convection Zones and Atmospheres”, which will be held on 25–29 August 2020 at the Lomonosov Moscow State University. The symposium will be dedicated to the following topics:

1. Convection (solar – on different scales – and stellar)
2. Differential rotation and meridional circulation (both solar and stellar)
3. Global dynamo (in the Sun and stars; solar-cycle observed patterns and predictions)
4. Helioseismology and asteroseismology (both global and local; probing subsurface structure and dynamics)
5. Local processes of magnetic-flux emergence, sunspot and starspot formation (observed patterns of sunspot evolution, small-scale motions, local dynamo)

For registration, please visit the conference website: <http://iaus365.sinp.msu.ru>.

Abstract submission, early-registration-fee payment and applications for visa support and IAU travel grants and are now also open. Please see the conference website for further details.
